# CONSERVATION WORKSHOP: LEAST BELL'S VIREO

## 24-26 April 2018

US Army Corps of Engineers. Engineer Research and Development Center

**Objectives:** To facilitate collaboration in conservation of listed species, with least Bell's vireo as an example. To review section 7(a)(1) of the Endangered Species Act. To outline least Bell's vireo ecosystem processes, life history, threats, and conservation solutions. To collaboratively develop and organize agency commitments towards conservation measures.

**Workshop Dates and Location:** The workshop will be held, April 24-25-26 (Tuesday – Wednesday – Thursday), at the U.S. Fish and Wildlife Service Office in Carlsbad, California (about 30 miles north of San Diego).

#### Carlsbad Fish and Wildlife Office 2177 Salk Avenue, Suite 250, Conference Room 1. Carlsbad, CA 92008 (760) 431-9440

**Airports**: The workshop location is 35 miles (about 45-65 minutes drive in typical traffic) north of San Diego International Airport, and 3 miles north of McClellan-Palomar Airport (a smaller regional airport with limited passenger service). Both locations have rental cars.

Parking: Parking lot (free) is available directly adjacent to the workshop facility

Directions: See maps below

Restaurant Options: See list below

**Lodging:** Hotels are found in the surrounding Carlsbad area at driving distances. Public transportation is not readily available. Few hotels are within normal walking distances to the workshop (the Marriott below is an exception). Below are some suggestions:

https://www.marriott.com/hotels/travel/sancs-courtyard-san-diego-carlsbad-mcclellan-palomar-airport/

https://sandiegocarlsbad.place.hyatt.com/en/hotel/home.html

http://www.marriott.com/hotels/travel/sancb-residence-inn-san-diego-carlsbad/?scid=bb1a189a-fec3-4d19-a255-54ba596febe2

### **General Overview**

**Day 1 -** Regulatory context; least Bell's vireo natural history, status, ecosystem features, and stressors; agency opportunities.

**Day 2** - Agency and organization initiatives and programs; least Bell's vireo stressors (continued), solutions, and collaboration on opportunities and commitments.

**Day 3 -** Working group: continued discussion of concerns, solutions, and collaborative commitment development.

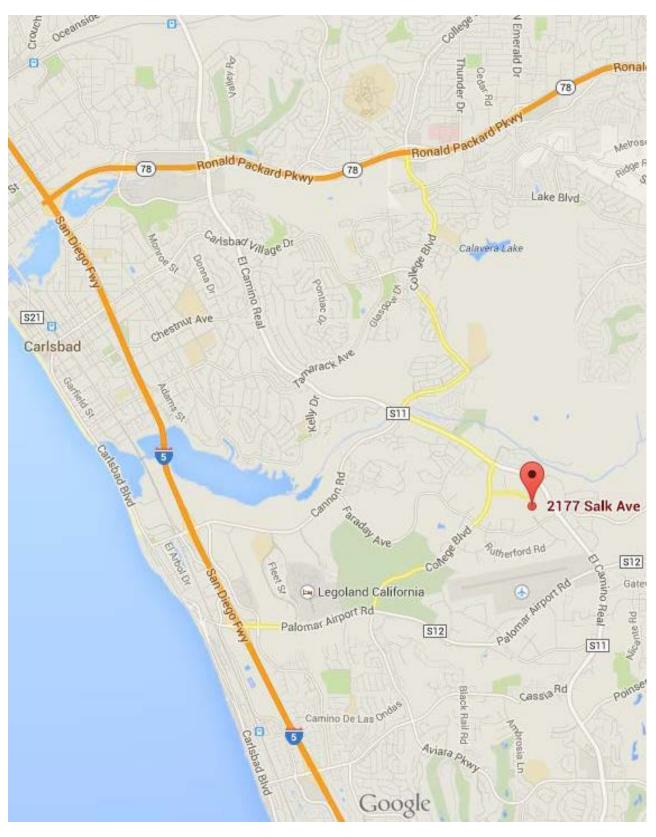

Meeting Deliverable: Draft Interagency Least Bell's Vireo Conservation Plan
